Subject: RE: Printer's Query for Case No. 09/818289

Mr. Lam-

This new drawing is not a part of the invention. It was simply a drawing that was shown by the Applicant during an interview to further explain the invention. Therefore, the originally filed Figure 1 is the only picture in this invention. Thank you!!

Ula

Subject: Printer's Query for Case No. 09/818289

Dear Examiner Ruddock:

Attachment is a copy of the printer's query, concerning the formal drawing.

I am not sure if the new drawing, filed on 12/18/2003, is part of the invention! Can you tell me if this is to replace the originally filed Fig. 1?

Your PTOL-37 Form did not mention this new drawing. Should we ignore the new drawing?

Thank you very much for your response.
